A young girl with dark curly hair, wearing a light purple t-shirt, is sitting at a desk in a classroom. She is looking upwards and to the right with a thoughtful expression, her hand resting on her head. In the background, other students and a teacher are visible, though they are out of focus. The image is overlaid with a semi-transparent blue filter on the right side where the text is located.

PULASKI COUNTY EDUCATION REPORTCARD 2021

University of Arkansas
Office for Education Policy

EXECUTIVE SUMMARY

The Pulaski County Report Card highlights how students in area schools are performing!

The goal of this report is to help parents, school personnel, community members, and policy makers understand how effectively the students in their community are being served by public schools. The past two years have been difficult for families, teachers, and students, and throughout the challenging context, Pulaski County students demonstrated lower growth in achievement on the ACT Aspire than students in the state overall, and are performing below the state average in achievement, graduation rates, and School Quality and Student Success scores. Acknowledging the unprecedented circumstances presented by the COVID virus, Arkansas schools were not assigned an overall letter grade in 2020 or 2021.

We think the **Growth Score** is the most important measure of school quality. Growth Scores measures how much individual students at the school increase their achievement scores from year to year. Using growth as a measure of school success levels the playing field because all students are evaluated by the extent to which they grow from their own starting point; thus, students facing socioeconomic barriers to achievement have the same opportunity for growth as do their peers from advantaged backgrounds. All students can grow their understanding, and we should expect all schools to foster student growth, regardless of family income, first language, or learning needs. To be in the top 25% of schools in the state, elementary schools need a growth score of 83 or higher, middle level schools need a growth score of 82 or higher, and high schools need a growth score of 81 or higher.

The **Achievement Score** is a familiar measure of student performance that reflects how well students score on the state's annual exams. Schools serving more advantaged students typically receive "good" scores because a high percentage of their students passed, while schools serving a larger percentage of students who lived in poverty, participated in special education, or were learning English often receive lower scores because a higher percentage of their students were unable to pass the test. While meeting grade-level standards is important, the clear connection between Achievement Scores and student demographics suggests that point-in-time test scores are not a good measure of how well a school is educating students, but rather a reflection of the wealth of the community being served by the school.

The **School Quality/ Student Success Indicator Score** includes a variety of measures, like student attendance, the percentage of students reading at grade level, student achievement and growth on the annual science assessment. In addition to the measures used for elementary and middle level schools, high school scores also reflect student enrollment in advanced courses, computer science courses, and community service learning as well as student performance on the ACT college-readiness exam and student GPA.

This report card presents information about these key performance indicators for the districts in Pulaski County. The Growth, Achievement, School Quality, and Overall scores of each of the traditional districts are compared to the average scores of the traditional districts overall, while the scores of the 13 public charter schools are compared to the average of all Pulaski County public schools.

BY THE NUMBERS

PULASKI COUNTY HIGHLIGHTS

Highest Overall:

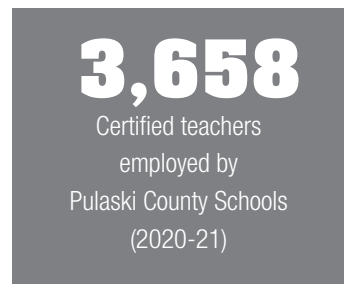

- LISA Academy: **Highest Growth**
- Academics Plus: **Highest Achievement**
- Academics Plus: **Highest School Quality Score**
- eSTEM: **Highest Graduation Rate**

Highest Traditional School District:

- Jacksonville and North Little Rock School Districts (tie):
Highest Growth
- Pulaski County Special School District:
Highest Achievement
- Pulaski County Special School District:
Highest School Quality Score
- Pulaski County Special School District:
Highest Graduation Rate

Highest serving at least 50% of students that face economic disadvantages:

- LISA Academy: **Highest Growth**
- LISA Academy: **Highest Achievement**
- Arkansas Virtual Academy: **Highest School Quality Score**
- eSTEM: **Highest Graduation Rate**

PULASKI COUNTY OVERALL

Enrollment: 57,859 | 119 Schools

● Pulaski County
● State

The **annual per-pupil expenditure**, **ACT Composite score**, and percentage of **students who graduated** 4 years after entering high school are additional indicators of school performance.

Student Characteristics: Why is this important? Students who participate in Free/Reduced lunch programs, or are identified as Limited English Proficient are At Risk for not meeting proficiency targets or graduating. When comparing district performance, it is important to consider the percentage of At Risk students enrolled.

Finance, ACT, & Graduation

	Pulaski Overall	State
Per Pupil Expenditure	\$11,671	\$10,113
ACT Composite Score	18.6	19.4
Graduation Rate	80%	89%

Student: Teacher Ratio 14 to 1

Student Characteristics

Growth Score

Growth Score:

This indicates how much the district's students in grades 3-10 improved over time on state assessments in English language arts and mathematics. This score also includes how well non-native speakers are progressing toward English language proficiency.

Districts serving fewer At Risk students don't always have higher growth scores. Growth scores are less related to student characteristics than achievement scores. Growth scores range from **61 to 92**.

PULASKI COUNTY OVERALL

- Pulaski County
- State

The Achievement Score indicates how well the district's students in grades 3-10 performed on state assessments in English language arts and mathematics. This achievement score is weighted so schools earn more points for students in higher achievement levels.

Districts serving fewer At Risk students typically have higher achievement scores. Achievement scores are more related to student characteristics than growth scores.

Achievement scores range from **1 to 110**.

The School Quality and Student Success score combines several measures of student engagement, readiness, completion, and success.

Schools get points for student attendance, reading at grade level, science achievement, and science growth. High school scores also reflect student enrollment in advanced courses, computer science courses, and community service learning. ACT performance and GPA are also considered.

School Quality scores range from **13 to 96**.

Achievement Score

School Quality/ Student Success Indicator

Overall ESSA Index

This is the **overall score** assigned to schools in the district. The overall score is based on several components: Achievement, Growth, School Quality and Student Success, and Graduation Rate for high schools.

TRADITIONAL PUBLIC SCHOOLS (TPS)

Traditional Public School Districts are systems of free public schools in which students are assigned to schools based on their home address. Students may apply for transfer to another school within their assigned school district, or to a school in a different district. Districts may accept or reject transfer requests.

OPEN-ENROLLMENT PUBLIC CHARTER SCHOOLS

Open-Enrollment Public Charter Schools are free public schools that can draw students from across district boundaries. Students who want to attend an open-enrollment charter school complete an application. Charter schools are prohibited from selecting students based on academic performance, student demographic characteristics, family income, or any other type of information. If more students apply to attend the charter school than there are seats available, the school must hold a public, random lottery to select students.
